National Youth Development Agency (NYDA)

**RE: Reason for changing funding request.**

We first applied for the NYDA grant in 2019 before the COVID-19 pandemic where our request was for equipment we could use to do demos at our various clients sites. However with covid-19 everything has been moved online where we are required to demo to our clients virtually.

As a software and media development company we rely heavily on using computer equipment and now with shared office spaces being closed, it is required that all our team members to work from home. We don't have laptops that they can use to work virtually and this Grant will help us purchase vital equipment to ensure that our business continues to operate and hopefully expand.

Thank you,

Lehlogonolo Sylvester Msuthwana
